Subject: V C Summer Plant; SCANA should not pay dividends to stockholders.

Commissioners, Governor, Senator, Representatives:

SCANA / SCE&G should not be paying dividends to stockholders until the rate payers get all their past money back and no longer have to pay into the future for the cancelled V C Summer Plant. Okay to pay bond holders and contracts, at this time.

SC needs to get out from under the 2007 law that protects SCANA / SCE&G. Either SCANA acted imprudently in managing the contract for the plant, or the law itself is unconstitutional (that is, rate payers should not be paying for a plant that is not used and useful).

SCANA going into reorganization bankruptcy, and wiping out a lot of its debt, will not be a bad thing for South Carolina. There have been lots of bankruptcies that worked out well: Pacific Gas and Electric, Columbia Gas (in the Midwest), General Motors, and Chrysler.

Thank you and regards, Michael Hajny
